

Bridgewood Wall

The Look and Feel of Wood in a Concrete Wall

Our new Bridgewood Wall is the latest addition to the Bridgewood family, which includes the Bridgewood Slab and Bridgewood Step.

Each piece features a realistic wood texture on each face taken from actual pieces of wood plank. Unlike traditional wood surfaces, Bridgewood Wall will never rot or warp.

This product is perfect for freestanding walls, small planter boxes and garden walls.

Garden Walls

SIZES (D X H X W)

Bridgewood Wall
152 x 1067 x 203 mm
6 x 42 x 8 in

COLOURS

Cedar Brown

Weathered Grey

PATTERNS

Pattern 1

INSTALLATION NOTES

To calculate pieces required, multiply the wall length, in feet, by 0.285. This will give you the number of pieces required per layer. Then multiply this by the number of layers to determine

total quantity required. For more in depth installation guides for specific products, visit BarkmanConcrete.com.
