

Flagstone Paver

The Natural Choice

Rugged edges complement the natural flagstone effect, allowing for irregular and distinct patterns that will define your backyard experience. Ideal for patios and walkways, Flagstone pavers appear as natural as authentic stone except they're easier to install and extremely durable.

INSTALLATION NOTES

It is recommended that a Paver Saver Mat is used between the plate compactor and the paver surface. Polymeric sand is also recommended. When installing this product, make sure to include a 2-5mm gap between each unit. This will provide

enough room for the jointing sand and make installation easier. For more in depth installation guides for specific products, visit BarkmanConcrete.com.
