Kodah

## The Look of Natural Stone

Kodah is a one-of-a kind large scale retaining wall. Its modern, linear proportions combined with its rough, quarried stone texture make it perfect for a variety of applications including garden walls and tiered walls.

Kodah's consistent quality and block dimensions eliminate the need to sort and sift through natural stone for just the right piece.

## INSTALLATION NOTES

- Always lift Kodah blocks in teams of two people.
- Mix blocks from multiple pallets in order to achieve the best possible color blend.
- To achieve proper setback in a retaining wall (7°), place each row of block 3/4" back from the previous row.

- Lay blocks in random order to avoid the appearance of vertical seams.
- Curved walls can be made with a minimum radius of 8 1/2 ft.
- For additional strength, adhere rows of block together with landscape adhesive.
